---

PROFESSIONAL SUMMARY

Passionate Frontend Developer with expertise in building high-performance, responsive web applications using modern JavaScript frameworks. Currently interning at Evu LLC (New York-based venture studio) developing HyperBuds, an AI-powered creator collaboration platform. Started development journey in January 2023 with rapid progression in React.js, Next.js, and TypeScript. Specialized in transforming creative designs into pixel-perfect, production-ready applications with clean, maintainable code. Leveraging AI-enhanced workflows (Cursor AI, ChatGPT, Claude) to deliver exceptional code quality and productivity. Proven track record of building 15+ deployed projects including e-commerce platforms, real-time applications, and complex full-stack solutions. Strong commitment to web accessibility, SEO optimization, and performance best practices.

PROFESSIONAL EXPERIENCE

Frontend Developer Intern - Evu LLC, New York   Current

Next.js 15 | React 19 | TypeScript | Tailwind CSS 4 | Socket.IO | Stripe | Zustand | TanStack Query

HyperBuds - AI-Powered Creator Collaboration Platform

Comprehensive platform connecting content creators for partnerships using AI matching algorithms.

- **AI Matching:** Intelligent creator matching with compatibility scoring (niche, audience, engagement)
- **Real-Time Messaging:** Socket.IO-powered chat with typing indicators, read receipts, file sharing
- **Rizz Score System:** Performance tracking analyzing engagement, growth, collaboration success (0-100)
- **Payment Integration:** Stripe subscription management and earnings dashboard
- **State Management:** Global state (Zustand) and server state (TanStack Query) architecture
- **Modern UI/UX:** Responsive design with dark/light mode, glassmorphism, Framer Motion animations

Stack: Next.js 15, React 19, TypeScript, Tailwind CSS 4, Socket.IO, Zustand, TanStack Query, Stripe

TECHNICAL SKILLS

Frontend Development

React.js, Next.js 14, TypeScript, JavaScript ES6+, HTML5, CSS3, Tailwind CSS, Responsive Design, Framer Motion, React Hooks, State Management, JSX

Backend & APIs

Node.js, Express.js, MongoDB, Socket.IO, REST APIs, Rapid API, JWT Authentication, Sanity CMS

Tools & Platforms

Git/GitHub, Vercel Deployment, Figma, VS Code, NPM/Yarn, Chrome DevTools, Formspree, Postman

AI & Productivity Tools

Cursor AI, ChatGPT, Claude AI, AI-Enhanced Development Workflows

Best Practices

SEO Optimization, Web Accessibility (WCAG), Performance Optimization, Clean Code Principles, Responsive Design, Cross-Browser Compatibility

Additional Skills

Component-Based Architecture, Server-Side Rendering, Static Site Generation, Agile Methodologies, Problem Solving

FEATURED PROJECTS

BoatingX - E-Commerce Platform   boatingx.co

Next.js | React.js | Tailwind CSS | Vercel | SEO Optimized

Modern e-commerce web platform for buying boats and marine products with custom domain integration.

- Designed and developed fully responsive UI/UX for seamless shopping experience
- Implemented secure checkout process for purchasing boats and marine accessories
- Optimized for search engine visibility and improved performance across all devices
- Custom domain integration and deployment on Vercel for reliable hosting

Real-Time Chat Application   Live Demo

React.js | Socket.IO | MongoDB | Node.js | Express.js | TypeScript | JWT

Full-stack real-time messaging application with authentication and live user features.

- Built responsive real-time chat with Socket.IO for instant message delivery
- Implemented JWT authentication and custom user avatar system
- Developed live user status updates and typing indicators
- Integrated MongoDB for data persistence and Express.js backend API

Browser Extension Manager   Live Demo

React.js | Next.js | Tailwind CSS | Dark/Light Mode

Streamlined interface for managing browser add-ons with modern features.

- Clean grid layout with icons, names, and descriptions
- Implemented dark/light mode switching for user comfort
- Built active/inactive tabs for quick filtering and management

Desserts Menu & Ordering System   Live Demo

React.js | Next.js | Tailwind CSS | State Management

Full-featured ordering system with dynamic cart and real-time price calculations.

- Dynamic cart with automatic item count and total price updates
- Interactive checkout with quantity controls and real-time subtotal
- Built using functional programming for efficient state management

Weather Application   Live Demo

React.js | JavaScript ES6+ | Weather API | Geolocation

Real-time weather data visualization with location-based forecasts and interactive features.

Additional Projects

E-Commerce Platform: Full shopping platform with product catalog and checkout (React.js, Next.js, MongoDB)

Todo Application: Task management with drag-and-drop (React.js, Tailwind CSS)

Age Calculator: Modern calculator with validation and animations (React.js, Next.js)

PROFESSIONAL DEVELOPMENT JOURNEY

▸ **Professional Frontend Developer (Current):** Building production-ready applications with modern frameworks, creating seamless user experiences, and delivering high-quality, scalable solutions using React, Next.js, and TypeScript.

▸ **Rapid Growth & Mastery:** Advanced through React ecosystem, Next.js, TypeScript, and modern development practices while building 15+ real-world projects deployed on Vercel.

▸ **Foundation Building:** Mastered HTML5, CSS3, JavaScript fundamentals, responsive design principles, and web development best practices through intensive hands-on learning since January 2023.

AI-ENHANCED DEVELOPMENT WORKFLOW

Utilizing cutting-edge AI tools to enhance productivity and code quality:

▸ **Cursor AI:** AI-powered code editor for intelligent code completion and refactoring

▸ **ChatGPT & Claude AI:** Problem-solving, code review, optimization, and documentation assistance

▸ **Benefits:** Write clean, readable code following industry best practices; faster debugging; enhanced code quality and consistency; rapid prototyping and iteration

KEY COMPETENCIES

▸ Component-based architecture and reusable UI component development

▸ State management with React Hooks (useState, useEffect, useContext, custom hooks)

▸ Server-Side Rendering (SSR) and Static Site Generation (SSG) with Next.js

▸ RESTful API integration and real-time data handling with Socket.IO

▸ Responsive design implementation across all devices (mobile-first approach)

▸ Performance optimization and Core Web Vitals improvement

▸ SEO optimization for improved search engine visibility

▸ Git version control and collaborative development workflows

▸ Agile development and rapid prototyping

▸ Cross-browser compatibility and accessibility standards (WCAG)

EDUCATION & TRAINING

Self-Directed Learning - Web Development

January 2023 - Present | Online Platforms & Hands-On Projects

Intensive self-study through online courses, tutorials, documentation, and building real-world projects. Focused on modern web development technologies including React ecosystem, TypeScript, and full-stack JavaScript.

High School Graduate

Comprehensive secondary education

PROFESSIONAL ATTRIBUTES

- ▸ Strong problem-solving and analytical skills
- ▸ Attention to detail and code quality
- ▸ Fast learner with adaptability to new technologies
- ▸ Self-motivated and proactive approach

- ▸ Excellent debugging and troubleshooting abilities
- ▸ Collaborative mindset for team environments
- ▸ Commitment to continuous learning and improvement
- ▸ Passion for creating exceptional user experiences
